

Downloading Time and Date to Time Clocks

You may change the time and date on your time clocks by downloading the system time and date from the TimeTrak application. Changing the time and date on your time clocks could affect the calculation of hours for some employees. First, make sure the system time and date is correct on your computer. Enter the **Processing** area of the TimeTrak software and click **on Clock Communications**.

When the **Clock Communications** screen appears, click on **<u>Processing</u>** from the top of the screen and select **<u>Download Time & Date</u>** from the drop down list.

🕒 Clock Commun	ications			
File Records View	Processing	Reports	Messages	Help
Session Name	Poll Emergen Poll Signa	cy Poll Rec itures	overy	
Description	Download	d Time & D	ate	5
Comtrace	Poll Log N	love		
Comtrace File Nam	Execute :	Session		File
Terminal Select	ll Clocks		<u>E</u> dit]
Session Port		Γ		Print Error Listing
TCPCLNT Comman	nd Delay	Γ		Execute
<u>0</u> k	Cancel		<u>S</u> ave	Memorize

In the next screen to appear, you may choose to download time and date to all clocks or select individual clocks. From the **Terminal Select & Proceed** screen, click the **<u>Edi</u>t** button under **Terminal Select**.

Transaction Filters		Comtrace	
Use Ranges	<u>R</u> anges	Comtrace File Name	File.
🗖 User Defined Fields	User Fields	Terminal Select	Print Error L
- 🔽 Use Dates		All Sites / All Clocks	Durand
	<u>B</u> egin Date		Canaal
	End <u>D</u> ate	TCPCLNT Command Delav	Help

The **Select Items** screen will appear. All of the time clocks connected to the TimeTrak system will be listed by Site Number, Clock ID, and Description. Place a check mark in the box next to each clock you wish to download time and date. Then click **Accept**.

	Clock Commi File Records Vie	unications w Processing Reports	Messages Help		
🕑 Terminal	Select & Proceed -	Download Time / Dat	e		×
Transaction	B Select Items				
Limpioyee	C Ranges	Begin		Date	File

The **Terminal Select & Proceed** screen will return. Upon selecting the **Proceed** button, the TimeTrak application will begin a communication session with the time clocks and download the time and date. When the communication session has completed, the process will return to the **Clock Communications** screen. You may then click **OK** or **Cance** to return to TimeTrak's main screen.
